### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: Claims 5 and 7, previously identified as containing allowable subject matter, have been rewritten in independent form, and are thus allowable, as are dependent claims 8 and 33. Claims 10-19 were previously allowed and remain allowable, as is new dependent claim 35.

Claim 1, as amended, is also allowable. The closest prior art, Roeckle and Eicher, each fail to teach a first array having a first fiber with an endface angled at an angle greater than the TIR angle of the fiber material, a second array having a second fiber with an endface angled at an angle greater than a TIR angle of the second fiber material, the two endfaces facing each other with a gap between, where a support structure is capable of flexing at a particular angle to change the size of the gap between the two fibers. Claims 2-4,6,9, and 29-32 are dependent from claim 1 and thus also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Drawings***

The drawings contain minor informalities such as handwritten reference numbers which should be corrected in response to this Office communication.
